Work History

Cinfores Limited

**Full Stack developer
Since 2021**

As a Frontend Developer and mobile developer, I specialize in building mobile and web applications using the latest programming technologies, including React, TypeScript, and React Native.

I have experience in developing robust and user-friendly web applications, ensuring a seamless experience across platforms. Additionally, I manage the e-campus portal for university campuses, enhancing the digital experience for students and faculty alike. My skills in both front-end and back-end development allow me to create comprehensive solutions.
